SUMMARY

Computer Science undergraduate (2027) with hands-on experience across the full software development lifecycle — from requirements analysis and design to coding, testing, and deployment. Skilled in building web applications with JavaScript, HTML, CSS, and React.js on the frontend, and Node.js, Express.js, and MongoDB on the backend, with working knowledge of Python for data analysis and machine learning. Strong grounding in data structures, algorithms, and object-oriented design, gained through academic coursework and hackathon projects. Comfortable working in agile, cross-functional teams to deliver scalable, maintainable software.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science & Engineering

Global Academy of Technology, Bengaluru (VTU)

Expected Graduation: 2027 — Current CGPA: 9.48 (7th Sem)

Pre-University (PUC) – Science Stream

Presidency Composite PU College, JP Nagar, Bengaluru (KSEAB)

Graduated: 2023 — Percentage: 92%

High School (SSLC)

Mary Immaculate High School, Wilson Garden, Bengaluru (KSEEB)

Graduated: 2021 — Percentage: 95%

TECHNICAL SKILLS

Programming: Java, JavaScript, SpringBoot, Python, C, SQL

Backend: Node.js, Express.js, REST APIs, JWT

Databases: MongoDB, MySQL

Frontend: React.js, HTML, CSS, Bootstrap

Tools: Git, GitHub, VS Code, Maven, Postman, Power BI

Cloud: AWS Lambda, API Gateway, DynamoDB, S3, CloudWatch

Engineering: Full-Stack Development, REST APIs, Database Design, OOP, SDLC

EXPERIENCE

Full Stack Web Development Intern

09/2025 – 11/2025

Web Stack Academy

- Developed MERN stack applications using React.js, Node.js, Express.js and MongoDB.
- Built REST APIs, CRUD modules and backend database integration.
- Used Git/GitHub and followed SDLC practices.

Data Science & Analytics Intern

12/2025 – 01/2026

Future Interns

- Developed interactive Power BI dashboards for data visualization and reporting.
- Performed data cleaning, exploratory data analysis (EDA) and sentiment analysis using Python.

PROJECTS

Question Paper Delivery System (QPDS)

React.js, Node.js, Express.js, MongoDB

Secure role-based workflow for question paper submission, verification and approval with REST APIs and MongoDB.

ChromaFind – Spot the Shade

Java 17, Spring Boot, React.js

Spring Boot backend with REST APIs, using Java Collections, Stream API and session management.

Serverless URL Shortener

AWS Lambda, API Gateway, DynamoDB, React

Serverless URL shortening app built on AWS Lambda, API Gateway, DynamoDB, S3 and CloudWatch.

Homely Hub – Resort Booking Web Application (Internship Project)

HTML, CSS, JavaScript, React.js, MongoDB

Responsive resort booking platform with location-based listings and an optimized, intuitive UI.

Money Tracker Web Application

React.js, JavaScript, MongoDB

Income/expense tracker with user authentication and reusable React components.

Restaurant Menu Website

HTML, CSS, JavaScript, Bootstrap

Responsive restaurant website with search, category filtering and cross-browser compatibility.

SOFT SKILLS

- Strong problem-solving and analytical skills.
- Effective communication, teamwork, and collaboration.
- Passion for learning new technologies and building innovative software solutions.
- Quick learner with adaptability to dynamic environments and emerging technologies.
- Detail-oriented with a strong work ethic and commitment to quality.

ACHIEVEMENTS

- Winner, **DBMS Hackathon 2025** – Global Academy of Technology, for designing and implementing efficient SQL-based database solutions to solve real-world database challenges.
- Internal Shortlisted Team – **Smart India Hackathon (SIH) 2025** for developing a Gamified Sustainable Farming Platform.
- Participant – **HAL Hackathon 2025**, developed a Privacy-Preserving Searchable Encryption for Secure KYC Systems implementing Searchable Symmetric Encryption (SSE).
- Participant – **WWT All India Women-Only Hackathon**, organized by Shooting Stars Foundation and World Wide Technology.

LEADERSHIP & ACTIVITIES

- **Research Group Head, Network & Security** – ACM Student Chapter, Global Academy of Technology – Leading research activities and coordinating team efforts in the Network and Security domain.
- **Organizer, Prompt Battle** – ACM Student Chapter, an inter-college technical event, contributing to the planning, coordination, and successful execution of the event.
- **Community Member** – ACM Community Club – Participated in technical and community-oriented activities at Global Academy of Technology.

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge.
